

Re-elect Stone Bleman

For Gateway Vice President

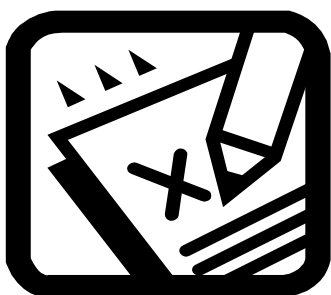

It has been a great honour and opportunity to serve you for the past 6 year as an APOC Representative and 3 years as the APOC Vice president at Gateway. There were many challenges during my term of office with issues including staffing, suspensions, disciplinary interviews, discrimination, human rights, conflict of interest and many other labour relation issues.

My passion to represent our members started when I witnessed the wrongful dismissals of two young APOC members within a week through no fault of their own. I was touch by the feeling of hopelessness and helplessness, in their eyes as they were walked out of the door.

No one wants to have trouble at work. Unfortunately sometimes issues occur at work through no fault of our own. APOC members that I have the previledge to represent can attest to you that I go the extra mile to ensure that your rights are not violated. I have helped members returned to work on issues involving disciplinary interviews, suspensions and dismissals.

To our credit, despite all the challenges, Gateway APOC members should collectively be proud of the near ZERO dismissals achieved during my term in office. I couldn't have done it alone. Your collective knowledge, experience, ideas and input, when our members are faced with issues that threatens their jobs is greatly appreciated.

I am counting on your votes to be able to continue to serve you in Gateway.
